About the speaker:

Dr. Isabelle Hénault obtained her master's degree in sexology and her doctorate in psychology at the Université du Québec à Montréal. She offers private consultations and acts as a consultant to organizations and schools. Her services also include diagnostic evaluation.

She has developed expertise in Asperger's syndrome, particularly in the field of interpersonal relationships and sexuality. As the author of an adapted socio-sexual education program, she also collaborates in several international research on sex education and psychotherapy for individuals with an autism spectrum disorder.

After the workshop, participants will:

- ★ have a better understanding of what their child may go through during adolescence and the importance of sexuality education for their development. Material and resources will also be shared during the presentation to help parents support their children and answer their questions.
