February 26th, 2021

Good afternoon,

On behalf of the entire Lindsay Place staff we would like to wish you a safe and restful spring break.

A few updates to share with you:

The school is closed next week.

Phase two of our construction in the LPHS building will start after the break. The science labs, tech wing and lower gym will be worked on beginning in April. At the beginning of the year we strategically located all classes in the circles and Math wing therefore, there will be no displacement with this second phase.

We have been advised that the school year has been extended until **June 23rd**:

- With the announcement from the Minister of Education that there will not be Ministry exams, classes have been extended until June 23rd for all grade levels.

Covid reporting over the break: Should you need to inform me of a positive result, please leave your name and number, with a brief message at (514) 694-2760 and I will be in contact with you.

Lastly, I would like to thank the staff and our entire community for your support and diligence in following the protocols outlined for us by Public Health. It is because of everyone's collaboration that we have been able to navigate this challenging time safely.

Wishing you a warm, healthy and fun spring break,

Mrs. Payette  
Principal
