October 7th, 2020

Dear Lindsay Place Community,

Thank you for your collaboration in helping us maintain a safe environment for our students and staff. Because of everyone's diligence and support we have been fortunate thus far, with no positive COVID - 19 cases to report.

As you have been made aware, there are several restrictions imposed on our school system as a consequence of Ministry decisions related to rising COVID infection rates. These measures are varied, but include:

- Modified schedules for Secondary 10 and 11 students
- Mandatory face coverings (mask wearing) inside the classroom (with an exception in Phys. ed). This new directive begins the moment the student steps onto school property and now includes, at all times outside. Students must wear a face covering (mask) unless they are eating or drinking and they must maintain the 2 meter distance at all times when outside and with students from outside their class bubble.
- It is advised that your child have several masks in their school bag in the case of lost or damaged masks.
- The imposed timeline for these measures is until October 28th but could be extended further. We will continue to follow the Minister's directives.

**Grades 7-9 along with WOTP (Focus)** are to continue to report to school following their schedule and all rules, as well as safety protocols and procedures already in place.

**For grades 10 and 11 which includes our Genesis program**, the following has been organized:

- Your child's schedule remains the same following the 6-day tumbling timetable. The shift is when online at home. Classes will be for a total of 40 minutes each period as follows:
  - 30 minutes direct instruction from the teacher followed by the student having independent work time
  - 10 minutes of availability by the classroom teacher attached to each class to support our students
  - Due to blended online teaching, make sure your child checks in with their teachers for class start times and links for Google Classroom or Zoom.
- Gr. 10 will be **online: Days 1, 3, & 5** and they will be **in school 2, 4 & 6**
- Gr. 11 will be **online: Days 2, 4 & 6** and they will be **in school 1, 3, & 5**
- **Teachers have advised their students which platform they will be using (Google Classroom or Zoom.)**

- Attendance is mandatory for both online learning and in school and will be taken.
- Please continue to follow the absence reporting of your child and all Public Health guidelines.
- When students are physically in school, they will be following the regular school day and assigned period time.
- It will be important that students check their email and Google Classroom daily.
- Please follow the school days in the agenda carefully, **most importantly the week of October 19th-23rd as the cycle days schedule is off-set.**

With the new directives from the Minister of Education, we are not permitted any guests into the school until further notice. As such, we have had to postpone indefinitely the vaccinations and school photos.

The safety and well-being of our students and staff remain our priority.

Mrs. K. Payette & Ms. L. McKergow  
Principal Vice-Principal
